

# Birdhouse That Kids Build

This project is simple enough for 3 year olds, yet can work for children up to pre-teen years.

## Materials needed:

- 1 x 8" pine board 6' long
- 6d nails, or 2" finish head screws
- 3/8" dowel 2 1/2" long

**Step 1:** Measure and draw the 7 different pieces on the 1 x 8" pine board. Follow measurements on drawing below.

**Step 2:** Cut out pieces

**Step 3:** Measure for holes in front and back panel. Drill 1" hole in top of both panels. Drill 3/8" hole as marked for perch in front. Diamond shaped front door has 4 sides that are 1 1/2" each. Measurement for center point for all these holes is shown on drawing to right.

For diamond shaped front door, draw pattern then drill 1/4" holes in each corner. Cut between holes to create opening.

**Step 4:** Assemble...glue in perch...install small eye hook at top of roof, one inch in from each end for cord or chain hanger.

**Step 5:** Sand smooth and paint as desired.
